Total Pricing Including Base + Options/Destination	\$30,119.00
Final Price:	\$30,119.00

Pharmaceutical companies should also be expected to invest more in scientific and R&D efforts to develop therapies for the underserved. In addition, the industry has been slow to adopt equipment and facilities for the use of orphan drugs to manufacture personalized medicines without the need for large-scale clinical trials. All parties involved in the U.S. drug supply chain, from pharmaceutical companies to hospitals and pharmacies, must work together to ensure that the drug supply is accessible to all.
